What You're Getting

With this gift, you're receiving a PasswordPact Annual subscription.

PasswordPact allows you to prepare and secure your Digital Life (online accounts & passwords, etc.) in an encrypted vault today... which can only be accessed in the future by individuals of your choosing, but only if a specific event you've planned for occurs.

Why PasswordPact?

- **Trustee Collaborative Security & Validation**

Vault opening requires unanimous Trustee confirmation of the predefined event's occurrence, followed by individual Trustee requests for access.

- **Resilience Against Multiple User Account Compromises**

Your vault's security remains intact even if one or multiple Trustee accounts are compromised, as no single Trustee or group of Trustees can access your encrypted vault alone.

- **Military-Grade Encryption & Decentralized Trustee Storage**

Encrypted vault files are distributed to chosen trustees upon creation. No cloud or central storage used, reducing attack surface and ensuring redundancy.

A Note from

Welcome to the PasswordPact family! We're thrilled to have you on board and look forward to helping you secure your digital world.

Stay safe online!
